## Updateanleitung SteerCommand und Ontrac3

1. [www.rodentechnik.de](http://www.rodentechnik.de)

2. Service/Software, USB-Stick einlegen

### AKTUELLE INFORMATIONEN:

3. SteerCommand und Ontrac3 suchen

Steer Command und Ontrac 3

4. Rechte Maustaste auf das gelbe Logo neben der SteerCommand und Ontrac3 - Software, dann Ziel speichern unter

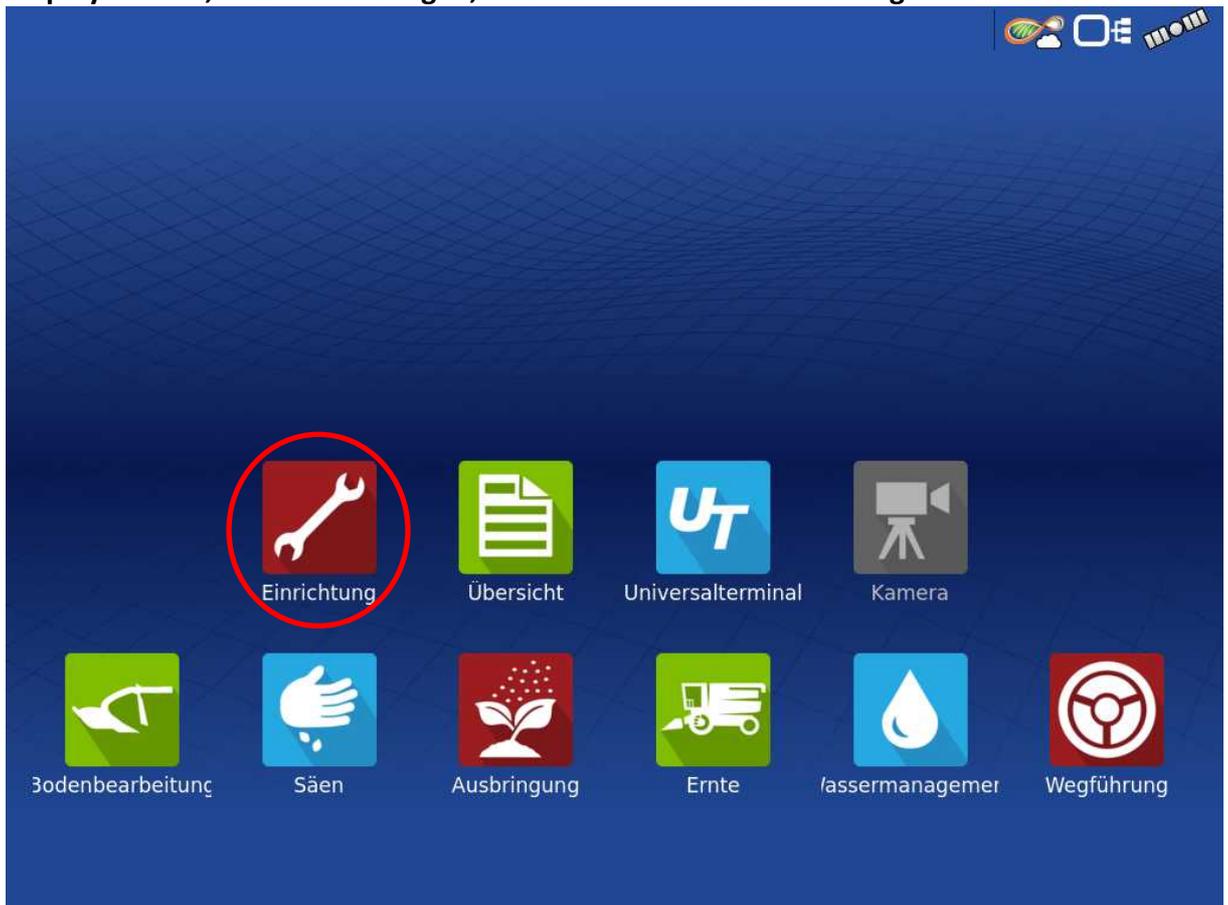

Steer Command und Ontrac 3

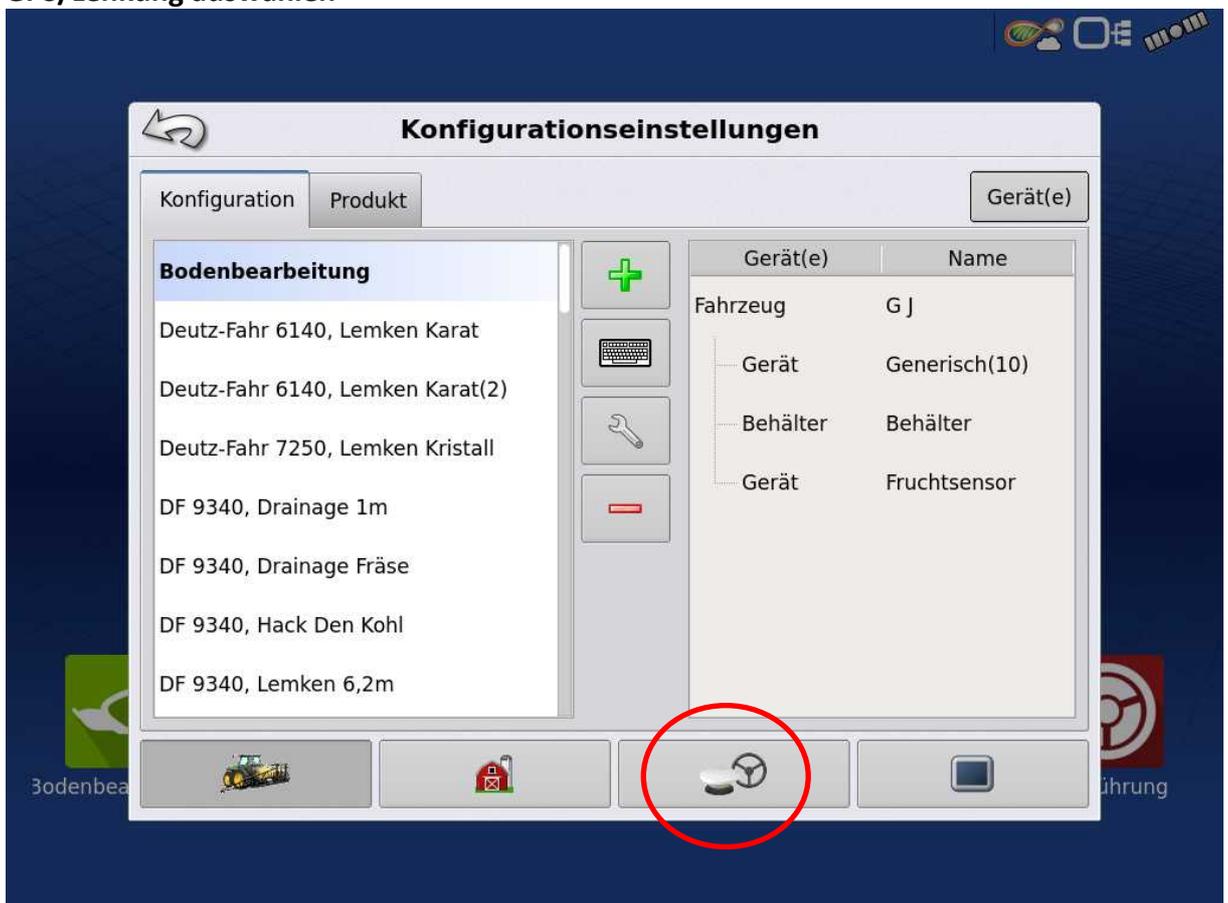

5. USB-Stick auswählen, speichern

A screenshot of a Windows file explorer window titled 'Speichern unter'. The address bar shows 'Computer &gt; USB20FD (F:)'. The left sidebar shows the 'Computer' section with 'USB20FD (F:)' selected and circled in red. The main pane shows a list of files and folders, including 'GeoSteer-v1.14.30517\_Chand', 'ParaDyme-v3.8.30952\_GLONASS', 'GeoSteer-v5.55555\_GLONASS', 'ECU-S1-v2.0.30465.tgz', 'ParaDyme-v3.8.30475.tgz', 'GeoSteer-v1.14.30470.tgz', 'GeoSteer-v1.10.28481.tgz', and three folders with names like '2011123698-4\_5-5\_2'. The 'Dateiname' field contains 'ParaDyme-v3.8.30952\_GLONASS\_Leap\_Second.tgz' and the 'Dateityp' is 'TGZ-Datei (\*.tgz)'. The 'Speichern' button is circled in red. In the background, a website for 'Paradyme' is visible, featuring a yellow warning logo and the text 'V 3.8.30952' and 'GeoSteer'.

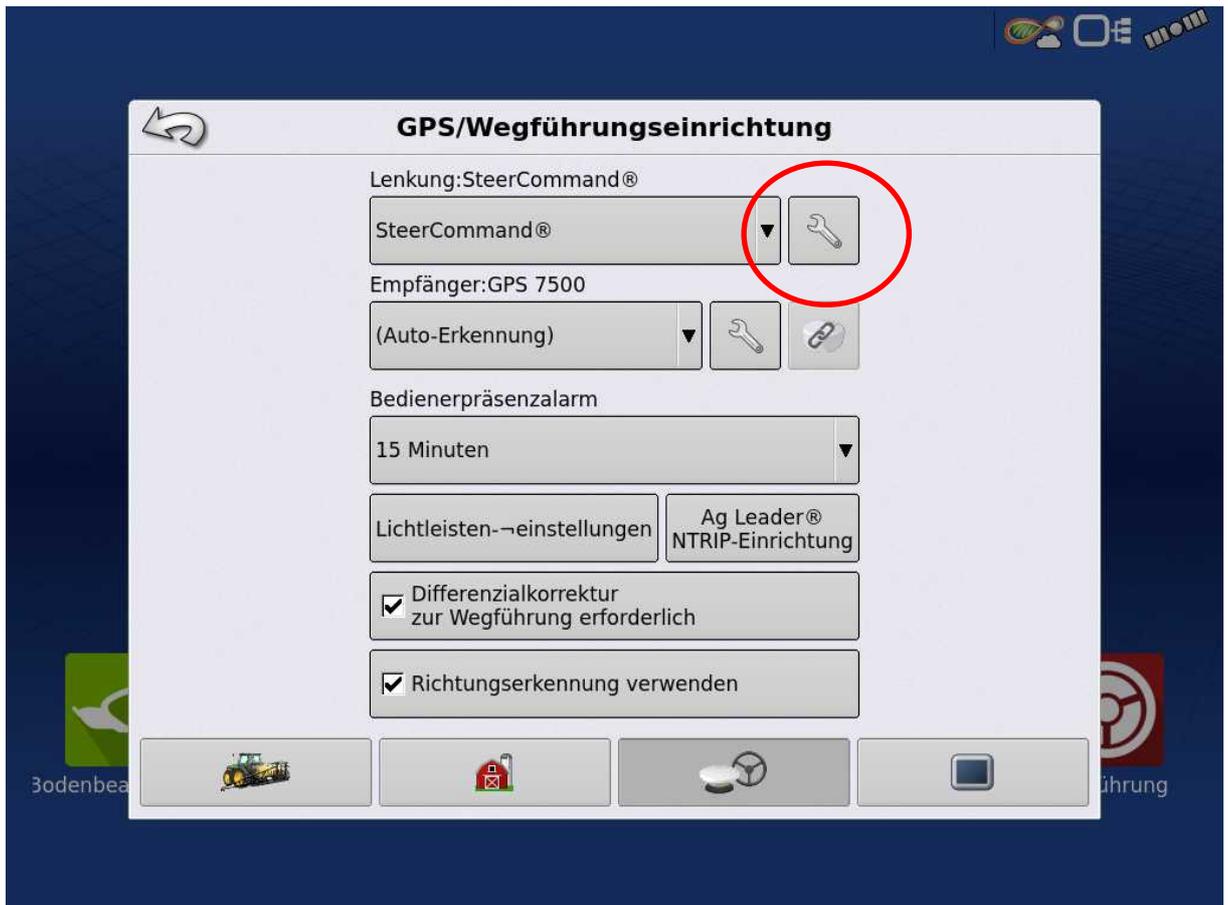

## 6. Display starten, USB-Stick einlegen, Schraubenschlüssel Einrichtung

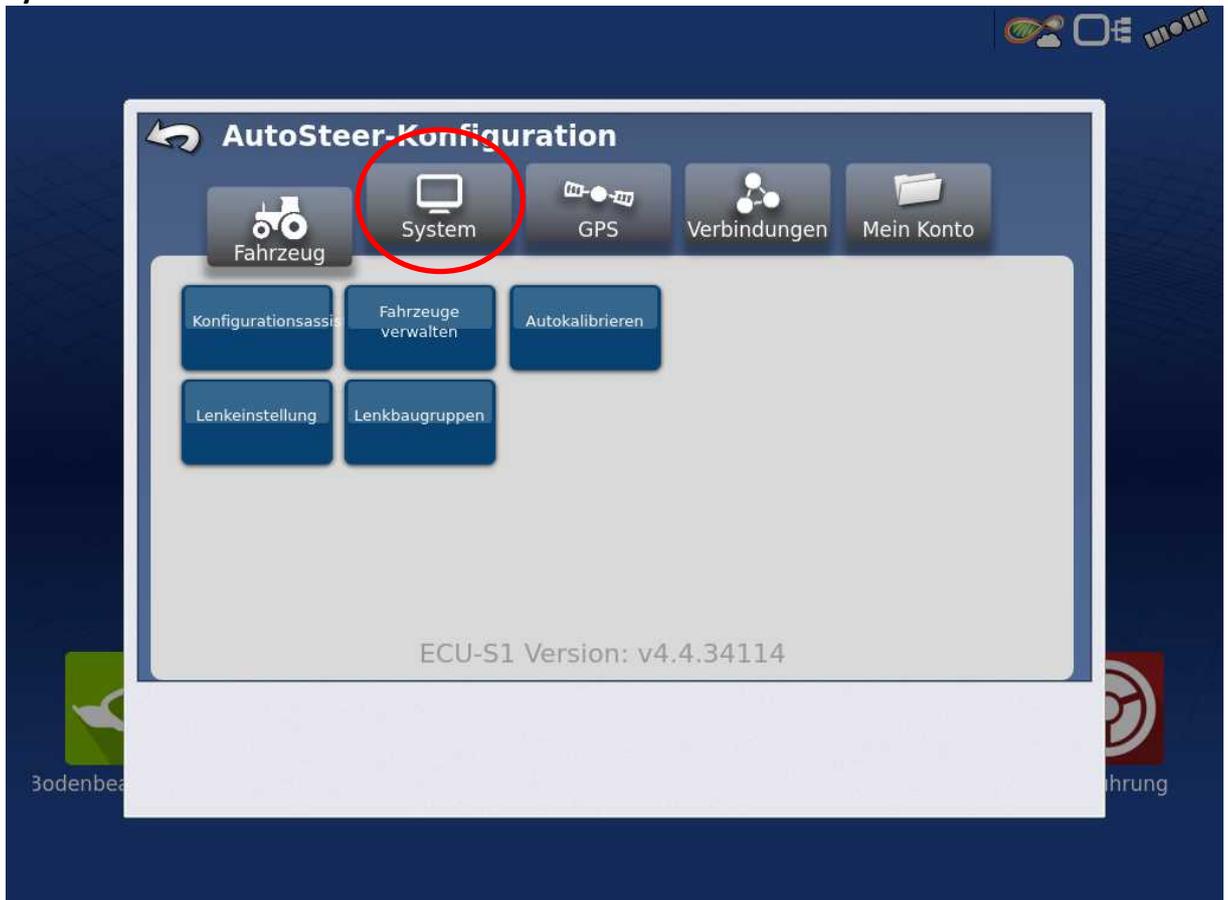

## 7. GPS/Lenkung auswählen

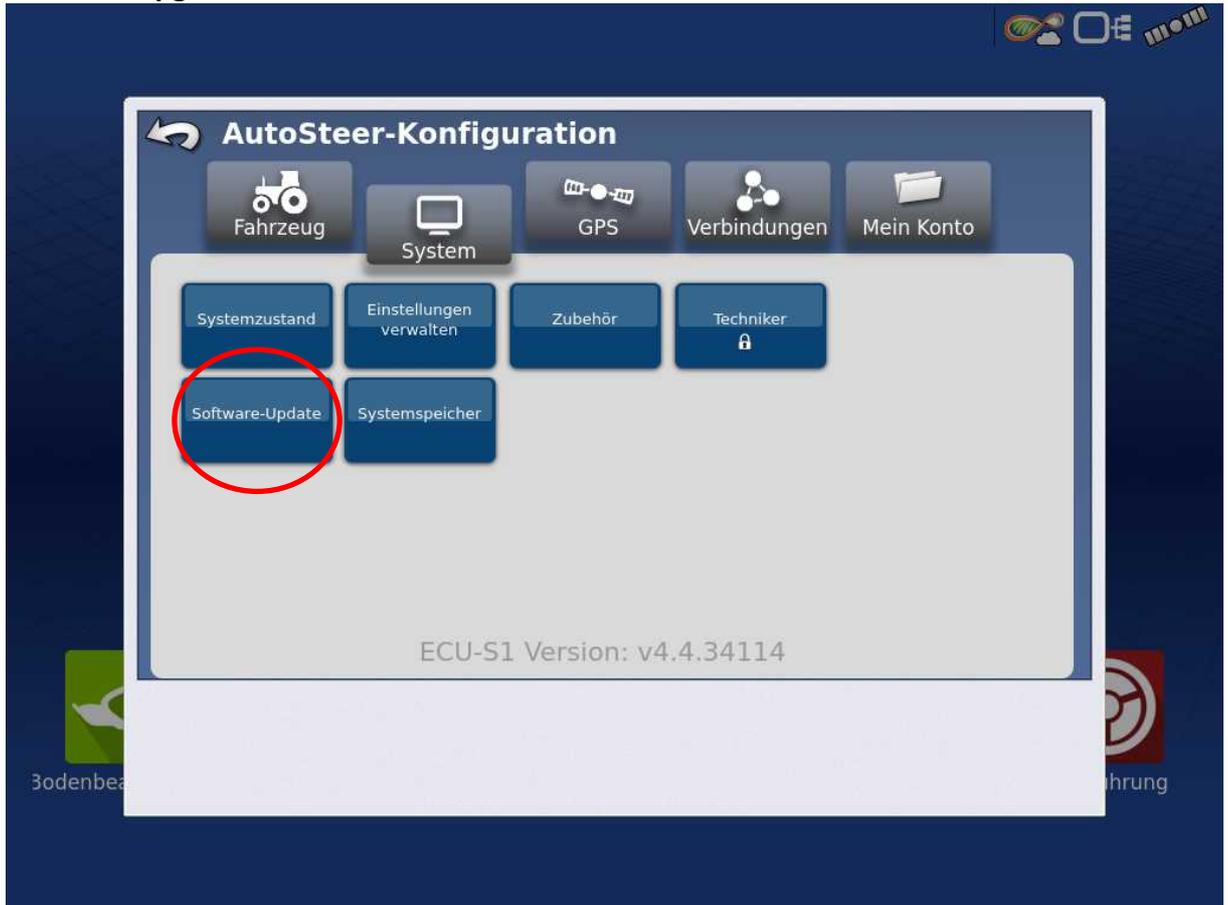

## 8. Schraubenschlüssel SteerCommand bzw. Ontrac3

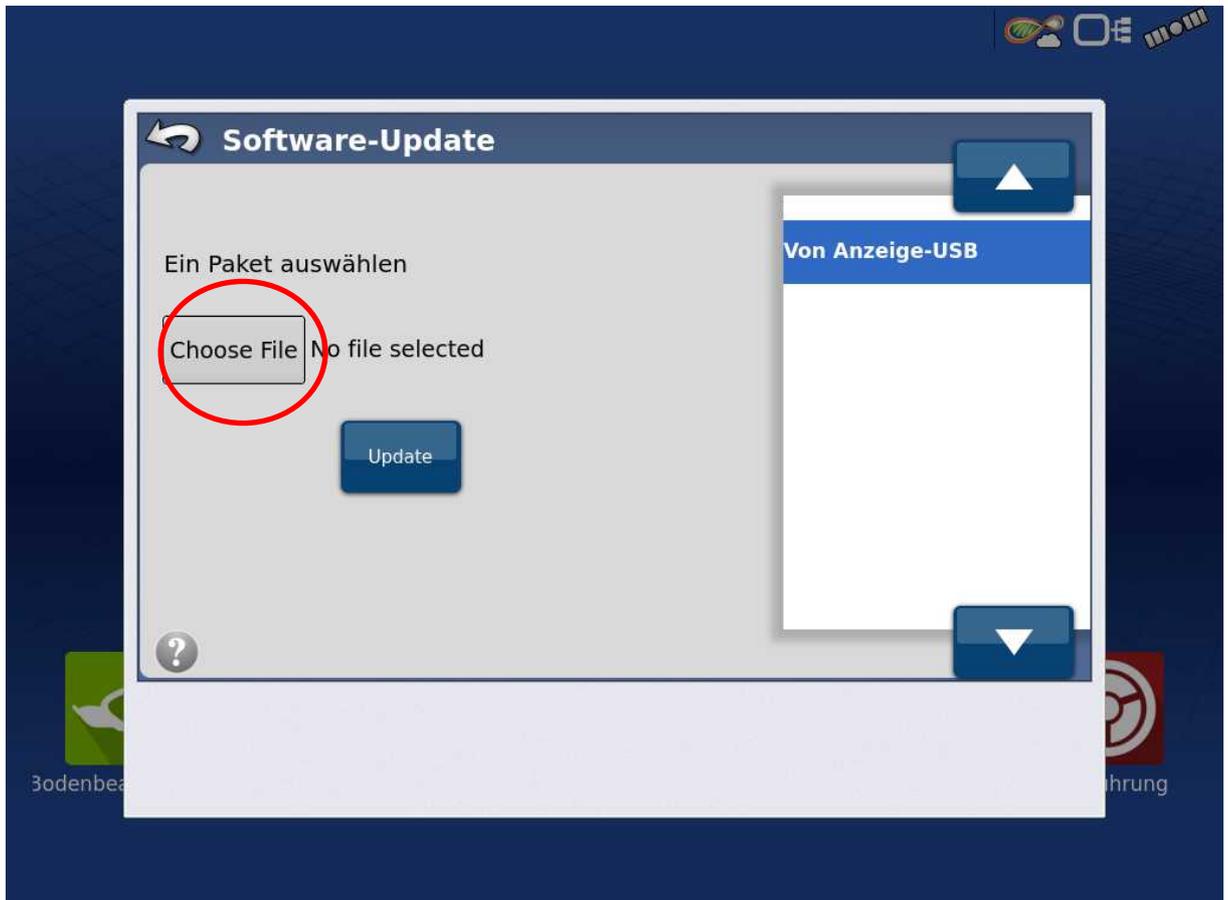

## 9. System
